SERVICE COORDINATION UNITS (SCU)

SCU – Service Coordination Units provide behavioral health services in different areas throughout Allegheny County. Consumers may access services by using their medical insurance, or fees can be set based on a sliding scale. Depending on the program or income eligibility guidelines, some services may also be free of charge. These agencies offer a wide range of treatment and support for children and adults whose functioning is impaired by mental illness, intellectual disability or alcohol and other drug dependency. Consumers may choose their Service Coordination Unit, but they may find it more convenient to start with the program that services their area.

ADMINISTRATIVE SERVICE COORDINATION (ASC)

ASC – Administrative Service Coordination is usually a starting point for most families. If a consumer is registered with any Service Coordination Unit in Allegheny County, an Administrative Service Coordinator will assess the consumer’s needs, help search for the appropriate providers, and make referrals to the services needed. An Administrative Service Coordinator provides technical assistance to families and children in need.

This service is available with or without insurance.

**BLENDED SERVICE COORDINATION
(BSC)**

<p>BSC – Blended Service Coordination - If a child is experiencing more significant serious emotional disturbance(s) that interfere with his or her ability to function, and he or she needs to receive treatment from two or more mental health providers or publicly funded systems, (such as Education, Child Welfare or Juvenile Justice), a Blended Service Coordinator would assist the family and child in coordinating these services. A blended service coordinator will also serve as a link and advocate between multiple systems to ensure the child gets the services that he or she needs. A Blended Service Coordinator will meet with the family/child in the home, at school or in the community, as needed.</p> <p align="center">Intakes can be done at the office, over the phone, or in the home. Agencies have up to 30 days to receive an evaluation.</p>

INDEPENDENT SUPPORTS COORDINATION (ISC)

ISC – Independent Supports Coordination - Every person registered with Allegheny County Office of Intellectual Disability (OID) receives Supports Coordination services.

The role of an Independent Supports Coordinator is usually described in three ways:

- Locating Services—helping you find ways to meet your needs.
- Coordinating Services—helping you access services that will help you.
- Monitoring Services—Making sure that you receive services in the safest and best way to meet your needs.

BEHAVIORAL HEALTH REHABILITATION SERVICES (BHRS)

BHRS – Behavioral Health Rehabilitation Services are mental health services that are provided to children and adolescents in their home and in community settings. They are sometimes called wraparound services. BHRS are for children that have a serious emotional or behavioral disorder that can best be treated in the home and/or in the community.

FAMILY FOCUSED SOLUTION BASED SERVICES (FFSBS)

FFSBS – Family Focused Solution Based Services are in-home interventions structured to meet the Treatment/Support Services needs of both parent and child.

FFSBS is designed for both children and adolescents with serious emotional disturbance(s), and adults with a mental health diagnosis who are involved in the child welfare or juvenile justice systems.

FFSBS are delivered in the home and community by a team consisting of a master's level clinician and a bachelor's level family support specialist. FFSBS are designed to integrate mental health treatment, family support services, and service coordination, and are intended to reduce the need for out-of-home placements by enabling families to maintain their role as primary caregivers for their children and adolescents.

MULTISYSTEMIC THERAPY (MST)

MST – Multisystemic Therapy is a multi-faceted, short-term, home and community-based intervention for families of youth with severe psychosocial and behavioral problems. MST is an intensive family- and community-based treatment that targets delinquent, violent, or substance-abusing juvenile offenders, both male and female.

To be eligible for MST services, the adolescent (male or female) must:

- Be 12 to 17 years of age
- Be residing in a family setting with a caregiver, or returning home after any type of placement
- Have a caregiver who is willing to participate
- Have active Medical Assistance coverage
- Be exhibiting chronic, violent, delinquent behavior and/or serious emotional problems.

If the family is receiving outpatient services, partial hospitalization, or wraparound services, the mental health professionals working with the adolescent must agree to referral to MST.

Fax: 724 775-0213

FAMILY BASED MENTAL HEALTH SERVICES (FBMHS)

FBMHS – Family Based Mental Health Services are voluntary mental health services for children and teenagers with serious emotional and/or behavioral disorders, as well as their families. FBMHS is for children who may need other out-of-home services if intense in-home services are not provided.

In addition to family therapy, FBMHS can provide around-the-clock crisis intervention to decrease the possibility of a child needing to leave home due to a crisis situation.

PARTIAL HOSPITAL PROGRAM (PHP)

PHP – Partial Hospital Program provides mental health treatment delivered in a clinic or school setting, to assist a child in transitioning from inpatient treatment or for prevention of psychiatric hospitalization.

Family Services of Western PA

(Ages 5-18)

Highlands Middle School
Broadview Blvd.
Natrona Heights, PA 15065
724-335-9883

The Child/Adolescent Partial Hospital Program is a collaborative effort between Highlands School District and Family Services of Western Pennsylvania. It is a program of both education and therapy. The program is designed to offer intensive support to students with behavioral and mental health issues.

Mercy Behavioral Health

(Ages 5-17)

1200 Reedsdale Street
Pittsburgh, PA 15233
412-320-2457

Mercy Partial Hospitalization works towards stabilizing a child's crisis by offering a day program designed for those who are leaving an inpatient setting or need more treatment than is available from outpatient services. The program separates children into elementary, middle school and high school groups.

The structure of each day includes:

- Three hours of instruction in a Pittsburgh Public School therapeutic classroom;
- Two hours in a therapeutic group, one hour of milieu therapy.

Western Psychiatric Institute and Clinic

(Ages 12-18)

Franklin Building
1011 Bingham Street
Pittsburgh, PA 15203
412-235-5494

WPIC Partial Hospitalization treatment offers a supportive environment of highly structured time, four to five days per week, for up to 20 hours per week. The program provides individual, family, and group therapies, and medication management.

PARTIAL HOSPITAL PROGRAM
(continued)

Wesley Spectrum

(Ages 6-18)

243 Johnston Road
Pittsburgh, PA 15241
412-469-9771

The Wesley Spectrum Acute Partial Hospitalization Program provides the child with short-term crisis prevention and stabilization and referrals for special education placement or therapeutic help. The program is linked to a transitional school program so the child can keep up with coursework. By living at home during treatment, the child feels secure, and families stay together. Following treatment, the child moves onto a more specialized school setting, or returns to his/her community school better able to face issues and meet his/her goals.

CHILD AND ADOLESCENT
DIVERSION AND ACUTE STABILIZATION PROGRAM
(DAS)

DAS – The Diversion and Acute Stabilization Unit is a temporary residential unit for children and adolescents which provide an alternative to inpatient hospitalization, can be used as a transition back into the community from inpatient, or as a step-down unit for RTF. Its primary focus is to reduce acute symptomatology, stabilize medication, avert inpatient hospitalization and divert from long term RTF. It is staffed 24 hours a day, 7 days a week.

Family Services of Western PA

321 East 5th Ave.
Tarentum, PA 15084
Main Number: 724 226-4552
Direct: 724 226-0664 Ext. 823
Fax: 724 224-7734

The Adolescent Diversion and Stabilization Unit at FAMILY SERVICES OF WESTERN PA can help the child manage symptoms and learn coping skills for daily problems by providing medication adjustments, individual assessments, a therapeutic classroom environment, individual and small group counseling, and therapeutic recreational activities. In addition, the unit's daily schedule includes a variety of educational group sessions aimed at stabilizing symptoms, promoting coping skills, and helping the child achieve recovery goals. The groups include, but are not limited to, anger management, problem solving and decision making, communication and social skills, self-esteem and self-awareness, coping skills, and drug and alcohol prevention (ages 14-17 years old).
