What attendees have to say—

I would recommend the course not only for those thinking of entering the superintendency but any sitting superintendents that want to expand their knowledge and re-examine the status quo.

*Scott Martin, Superintendent
Bentworth School District*

Without a doubt, the course made all the difference in preparing me for the superintendency. The job embedded assignments were extremely valuable, and the real-life scenarios discussed in class generated rich dialogue among the participants.

*Sheri Yetzer, Superintendent
Corry Area School District*

I found the course to be relevant and impactful. This work is challenging, and we need the resources, training and knowledge to be effective in our role.

*Dr. Sean Aiken, Superintendent
Shaler Area School District*

Dr. DiSanti's knowledge and perspective provide an inside look at how to navigate the superintendent waters. This course was one of the best professional development courses I have taken as an administrator.

*John Vannoy, Superintendent
Sharpsville Area School District*
