

Stronger Academic Standards for Family and Consumer Sciences (FCS) + Stronger Career Ready Skills = greater potential for gainful employment and more productive members of society. When teachers work on teaching the FCS academic skills, they're infusing students with the skills they will need to be career ready and successful in family and work life.

What Are Career Ready Skills?

The social-emotional skills students need to function in workplaces, society, within a variety of relationships (school, family, professional, etc.). They are also known as employability skills.

- Manage emotions
- Understand the context and build relationships
- Ability to problem solve, both individually and within a team

PA Career Ready Skills

Create Productive Individuals for a Booming Economy

Connection between what's happening in schools with the Academic Standards for Family and Consumer Sciences and the ability to function within society. We practice:

- Self-awareness and self-management
- Establishing and maintaining relationships
 - Social problem solving

Academic Standards for Family and Consumer Sciences

We provide a field of study focused on the science and art of living and working in a complex world.
